

NIKO

AND THE
SWORD OF LIGHT

THE STORY

"A boy alone, lost in a savage land ruled by darkness. His people gone. His kingdom a smouldering ruin. His only hope is the Sword of Light; a magical relic, forged by the ancient gods - and the only thing powerful enough to return his land to freedom..."

Inspired by a love of comics, epic movies, and adventure stories, "Niko and the Sword of Light" combines all three into one intense interactive experience. This mythical tale will take you through awe-inspiring landscapes full of wondrous characters and monstrous beasts! All conceived of by the minds of Imaginism Studios -- character designers for Tim Burton's *Alice in Wonderland* (2010) -- and the innovative 2D animation house, StudioNX.

"Niko and the Sword of Light" truly is the first of its kind and successfully bridges the gap between static comics and animated films. Complete with movie voice actors and a modern cinematic score featuring DJ Yoda, this is one animated comic you will want to pick up again and again!
